Settings / Preferences, Security

The sketch shows a mobile app interface for 'Settings and Security'. At the top is a header bar with a 'LOGO' on the left and three icons (a person, a gear, and a shield) on the right. Below the header is a title bar that says 'Settings and Security'. The main content area is divided into three sections. On the left is a vertical list of settings: 'edit profile', 'edit payment', 'notifications', 'accessibility', and 'display'. The middle section is titled 'Edit Profile' and contains a circular profile picture placeholder with a smiley face, a 'change profile pic' label, two text input fields labeled 'Name' and 'Bio', and a 'save changes' button. On the right is a vertical sidebar with two sections: the top one is labeled 'Wds!' and contains a list of items, and the bottom one contains a single item.

Examples for accessibility, display:

Accessibility:

- Reduced motion
- Always display image descriptions
- Increase color contrast

page display options

Display:

- Font size/weight
- Light/dark mode
- Accent colors

The sketch shows a settings card titled 'Title (eg. Display)'. It contains three options: a 'toggle option' with a switch, a 'slider option' with a horizontal line and five dots, and a 'pick 1 option' with four radio buttons, the first of which is selected.
